

**OBJECTIVE:**

Create a private retreat/multipurpose space.

**CHALLENGE:**

Plumbing needed under the sewerage and stormwater mains.

**SOLUTION:**

**SANICUBIC 2 PRO WP**

With control panel and wireless remote alarm

## FROM UNDERGROUND DIRT TO DREAM STUDIO APARTMENT

When Carla and John Giannakopoulos thought about selling their beautiful South Coogee home, the feedback that they kept receiving was that the home needed an additional, private living space.

As Carla said, *“Because our home is open plan, there’s no separate space for parents or kids to retreat to”.*

The couple decided not to sell but they did want to create an additional living area to use as a guest space, a teenage rumpus room or granny flat.

Identifying the perfect location was simple, the challenging part was making it a reality. The space available was behind the garage, underground and under the sewerage mains. This presented some structural challenges, as well as plumbing challenges. Being under the sewerage and storm water mains ruled out traditional plumbing.

This is when Carla came across Saniflo. *“Plumbing was basically impossible without Saniflo. We couldn’t have any water or appliances without them.”*

**“We wanted to create a private space with all the amenities that our guests could enjoy. Saniflo made this possible.”**

- Carla Giannakopoulos, South Coogee.

## SANICUBIC 2 PRO WP

The Sanicubic 2 Pro WP enabled the installation of a toilet, shower, dishwasher, washing machine and two sinks.

To achieve Carla and John's desired guest space, a Sanicubic 2 Pro WP was installed inside the closet, under the flooring. This pump enabled the installation of a toilet, shower, dishwasher, washing machine and two sinks. Six applications with one simple solution.

Once the pump was installed, the sky was the limit. Not only could Carla and John's space have a complete bathroom, they were also able to install a kitchenette and a washing machine. Everything that their guests need to be self-sufficient.

**"It provides us and our visitors with privacy and it has given us another usable space. It has also added to the value of our home."**

- Carla Giannakopoulos, South Coogee

The Sanicubic 2 Pro WP was discreetly installed inside the closet.

Since completing their renovation, Carla and John have seen a significant increase in the amount of visitors they receive.

As Carla said, *"It provides us and our visitors with privacy and it has given us another usable space. It has also added to the value of our home"*.

Thanks to Saniflo, Carla and John have achieved their dream additional living area, creating a beautiful studio apartment out of dirt!

### KEY BENEFITS:

- ✓ Innovative plumbing allows installation of underground wet areas.
- ✓ Heavy-duty pump pushes waste water up to 11m vertically or 110m horizontally to the sewerage and stormwater mains.
- ✓ Enables the installation of a toilet, sink, shower, bathtub, washing machine, kitchen sink, dishwasher, tankless water heater and bidet in areas without plumbing access.
- ✓ Powerful and reliable with two motors and a wireless alarm.

### ABOUT SANIFLO

Saniflo is a brand created and owned by the French owned SFA Group. For over 60 years the SFA Group's goal has been to allow one to easily install toilets, showers, sinks, kitchens, baths and hand basins literally anywhere. From its early beginnings as the inventor of the domestic macerating system, the SFA Group is today amongst the main companies providing pump solutions worldwide. Synonymous with quality and technical expertise, Saniflo's made in France products comply with the strictest quality requirements and consistently meet customer expectations. Saniflo products all have Australian Watermark approval and their pumps are intended to be installed by licensed plumbers.

### SANIFLO'S DESIGN SERVICE

Saniflo offers project consultancy and assists architects and hydraulic consultants by reviewing plans, assisting with design layouts and recommending the correct pumps and their ideal location. We even work with the plumber onsite during installation to ensure that everything goes as planned. Saniflo has a wide selection of products for domestic and commercial application to provide design flexibility.
