

OBJECTIVE:

To renovate the heritage cabins and create an inclusive luxurious experience

CHALLENGE:

Plumbing solution required for the elevated bathroom drainage

SOLUTION:

SANICUBIC 1 WP

LUXURY CABINS PEBBLY BEACH, NSW

Located south of Sydney, nestled between Murramarang National Park and the white sands of Pebbly Beach are the picturesque luxury cabins of Pebbly Beach Escape.

The five cabins with the backdrop of the coast rival the comfort and style of a five star vacation resort.

The owner, Colin Bailie, who manages several businesses in the tourism industry, was extremely pleased with his new business investment and venture.

After a change of ownership, Colin decided to embark on the renovation of the cabins to offer visitors more comfort by providing showers, basins and toilets within the luxury cabins.

Colin had previously used the Saniflo pumps at his eco-tourism property, so he instantly knew that he would be able to rely on Saniflo for a solution.

“We decided to remodel the cabins and relocate some of the amenities in order to create a better flow and optimise the surrounding views. We instantly came across a hurdle when we relocated the bathroom for two of the cabins. The move created an elevation, which now meant that traditional gravity plumbing was not an option.”

- Colin Bailie, Owner - Pebbly Beach Escape.

SANICUBIC 1 WP

The Sanicubic 1 WP was installed at 2 of the cabins; a powerful high performing lifting station, with a tough and reliable macerating pump. A total of 3 bathroom fixtures; a toilet, shower and basin were connected to the Sanicubic 1 WP, which was installed externally to the cabin in order to maximise the bathroom space.

“Saniflo has provided a cost effective solution for what is a very costly problem. This is the second occasion I have used Saniflo for a plumbing solution and I’m extremely pleased with the reliability of their pumps. I definitely will be using them again in the future!”

- Colin Bailie, Owner - Pebbly Beach Escape.

KEY BENEFITS:

- ✓ Ideal for additional granny flats, studios or cabins
- ✓ New design with easily removable motor for servicing and maintenance
- ✓ External hard wired audio visual alarm
- ✓ Working temperature of 35°C. Will handle up to 70°C for short periods
- ✓ IP68 waterproof rated

ABOUT SANIFLO

Saniflo is a brand created and owned by the French owned SFA Group . For over 60 years the SFA Group's goal has been to allow one to easily install toilets, showers, sinks, kitchens, baths and hand basins literally anywhere. From its early beginnings as the inventor of the domestic macerating system, the SFA Group is today amongst the main companies providing pump solutions worldwide. Synonymous with quality and technical expertise, Saniflo's made in France products comply with the strictest quality requirements and consistently meet customer expectations. Saniflo products all have Australian Watermark approval and their pumps are intended to be installed by licensed plumbers.

SANIFLO'S DESIGN SERVICE

Saniflo offers project consultancy and assists architects and hydraulic consultants by reviewing plans, assisting with design layouts and recommending the correct pumps and their ideal location. We even work with the plumber onsite during installation to ensure that everything goes as planned. Saniflo has a wide selection of products for domestic and commercial application to provide design flexibility.
