

OBJECTIVE:

Complete a fine dining restaurant with its own bathroom facilities.

CHALLENGE:

Plumbing needed in a restaurant situated on the wharf.

SOLUTION:

SANICUBIC 2 PRO WP

With control panel and wireless remote alarm

ORMEGGIO RESTAURANT AT THE SPIT IN MOSMAN, SYDNEY, NSW

For a fine dining restaurant, it's incredibly important to have self-contained facilities. The last thing a restaurateur wants is for his exclusive clientele to leave the restaurant to use the not-so-nice public amenities. This is the problem Alessandro Pavoni faced with his restaurant, Ormeggio at The Spit.

When Alessandro decided to create two internal bathrooms for Ormeggio as well as a small bar, his plumber suggested Saniflo.

As the restaurant is situated on the marina, accessing conventional plumbing was not an option. Luckily, Saniflo's innovative pumping solution allows the installation of wet areas in locations where traditional plumbing is not possible.

To achieve the desired spaces, complete with two toilets, two basins and a bar sink, Saniflo recommended the Sanicubic 2 Pro WP.

“Having our own bathrooms was key for me. I’m running a fine dining restaurant and containing our customers within the restaurant is very important to their overall experience.”

- Alessandro Pavoni, Owner of Ormeggio at The Spit.

SANICUBIC 2 PRO WP

The Sanicubic 2 Pro WP was selected for the reliability of the twin 1500W motors and high flow rate, making it ideal for restaurant facilities. There is also an alarm feature to indicate any faults.

“On weekends, we can serve up to 80 guests, so we needed to have a reliable plumbing solution. I am very happy with Saniflo. Not only does our pump work well, our guests also frequently comment on our beautiful facilities. It’s unbelievable how happy everyone is.”

- Alessandro Pavoni, Owner of Ormeggio at The Spit.

Thanks to Saniflo’s Sanicubic 2 Pro WP, Ormeggio now have two beautiful bathrooms plus a complete bar with bar sink, an absolute must for any restaurant.

“Given the restaurant is on The Spit and the tidal nature of the location, the IP68 rating (submersible) of the Sanicubic 2 Pro WP made it an ideal choice.”

- Greg Waters, Technical Manager Saniflo Australasia

KEY BENEFITS:

- ✓ Powerful, heavy duty commercial grade pump.
- ✓ Wireless remote alarm to indicate faults.
- ✓ Twin 1500W motors and an IP68 waterproof rating.
- ✓ Pumps 11m vertically, 110m horizontally, or lesser combinations or both.

ABOUT SANIFLO

Saniflo is a brand created and owned by the French owned SFA Group . For over 60 years the SFA Group’s goal has been to allow one to easily install toilets, showers, sinks, kitchens, baths and hand basins literally anywhere. From its early beginnings as the inventor of the domestic macerating system, the SFA Group is today amongst the main companies providing pump solutions worldwide. Synonymous with quality and technical expertise, Saniflo’s made in France products comply with the strictest quality requirements and consistently meet customer expectations. Saniflo products all have Australian Watermark approval and their pumps are intended to be installed by licensed plumbers.

SANIFLO’S DESIGN SERVICE

Saniflo offers project consultancy and assists architects and hydraulic consultants by reviewing plans, assisting with design layouts and recommending the correct pumps and their ideal location. We even work with the plumber onsite during installation to ensure that everything goes as planned. Saniflo has a wide selection of products for domestic and commercial application to provide design flexibility.
