

Operating principle

SANITOP® is used to create an additional half bathroom. This unit offers a quiet macerating pumping system that is ideal to install a toilet with a washbasin.

Appliances: WC, washbasin

The macerator unit consists of several components:

- A water pump, with integrated cutter system housed in a basket calibrating waste matter to a size of 15 mm or less, powered by a 400W motor reaching up to a maximum discharge head of 8 metres (Q=0 l/min)
- A water level detection system
- A non-return valve

The tank has 2 inlet and 1 discharge connections:

- Inlet connections :
 - 1 toilet connection DN 100
 - 1 top inlet DN 40
- Discharge : 1 DN 22/28/32/40

Index of protection: IP44

- Technical features :
 - Electrical power supply : 220-240 V / 50 Hz
